Standard

CV Services Group’s (CV) supplier base is a key enable for the business to deliver. In order to ensure a sustainable business operation CV develops and maintains supplier relationships that are ethical, based on mutual benefit and focused on a shared commitment to meet or exceed our customers’ requirements.

Sustainable and ethical business practices are the foundation for this. CV considers the performance, commitment and continuous improvement of our suppliers in these areas when selecting and developing them. We expect our suppliers to communicate this policy to all relevant departments and employees.

CV strives to initiate positive change based on continuous improvement throughout the value chain. The Sustainable Sourcing Policy Standard supports the CV sustainability strategy to deliver more value – for our customers and consumers – while reducing our environmental footprint at the same time.

In addition, they must strive for continuous improvement of their sustainability performance. Our suppliers must comply with applicable laws, rules and regulations as well as the standards relevant for their business.

CV’s suppliers are evaluated with respect to their ability to meet CV’s requirements and specified expectations. Suppliers who repeatedly fail to meet the defined requirements will be identified and corrective actions will be taken.
